Ok sounds good. The first one on the list didn't have a specific email subject line or anything so that's the only one that just follows the name of the document itself. Here are the links to the references in HERO. All are tagged to Formaldehyde and the documents provided have been attached to the references.

Hi Erin and HERO,

The two excel spreadsheets should be part of the same HERO pages as the corresponding emails (i.e., for #s 5 and 6), so the HERO information can be based on the emails in those cases. The rest of the documents should all be emails with individual HERO pages, so what you propose sounds fine... I just want to be able to find it by author last name so that I can cite it.

Thanks,  
Andrew

Hi Andrew,  
Sure, we can add these. Do you have specific titles or author first names (or initials) that you'd like to add to the references that aren't emails (for emails we usually use the subject line as the title)? Otherwise we can put them in HERO with the title matching the name of the corresponding document, author with just the last name, and the date.

Thanks,

Happy Monday Team HERO!

Can you please create separate HERO pages for these author communications as follow, and tag them to the formaldehyde page? The HERO citation should be identifiable by the author name and communication date, as defined below. Thanks.

1. Citation: Neghab, 2012; 1 file: 'Neghab response061712'
2. Citation: Matsunaga, 2012; 1 file: 'Email-Miyake\_Matsunaga Study...'
3. Citation: Smedje, 2012; 1 file: 'Email-Smedje\_22Mar...'
4. Citation: Venn, 2012; 1 file: 'Email-Venn\_29Mar2012...'
5. Citation: Palma, 2018; 2 files: 'PalmaPhillipsCommunication2018' AND 'PalmaPhilips2018NATA2011...'
6. Citation: Strum, 2018; 2 files: 'StrumPhillipsCommunication2018' AND 'StrumPhillips2018formaldehyde 2015...'
7. Citation: Kaplan 2012; 1 file: 'KaplanSarsilmazCommunication2012'
8. Citation: Kaplan, 2014; 1 file: 'KaplanSarsilmazeCommunication2014'

Thanks again!
